

PARANORMAL INVESTIGATION AT THE JUDGE'S LODGING

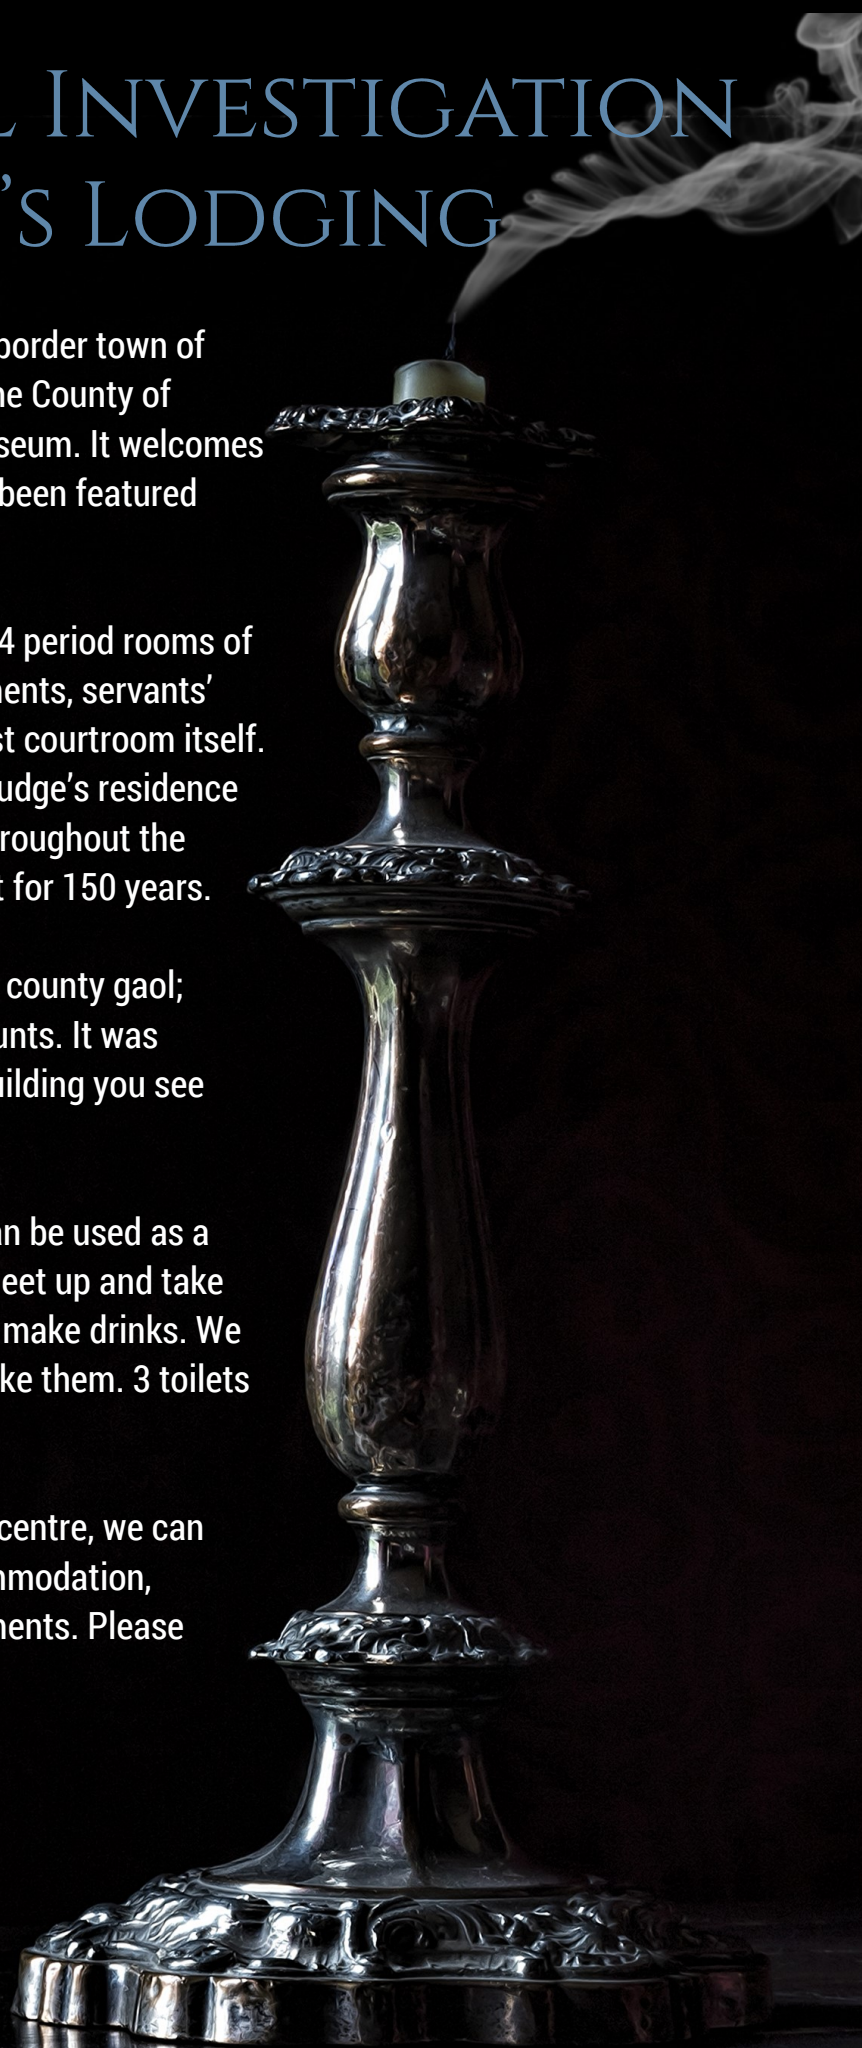

The Judge's Lodging, in the small Welsh border town of Presteigne, is the former Shire Hall for the County of Radnor and is now an award-winning museum. It welcomes paranormal investigation teams and has been featured twice on Most Haunted.

You will have access to the full suite of 14 period rooms of the building, including the judge's apartments, servants' workrooms, two holding cells and the vast courtroom itself. The building was opened as a court and judge's residence in 1826, seeing cases of all types from throughout the county. It continued to operate as a court for 150 years.

The previous building on the site was the county gaol; a grim affair according to surviving accounts. It was demolished to make way for the grand building you see today.

We have a modern, well lit room which can be used as a 'base', where you can store equipment, meet up and take breaks. There is a kitchen where you can make drinks. We can provide you with cups, if you would like them. 3 toilets are also available.

As we run the town's tourist information centre, we can also help you and your guests find accommodation, pre-investigation meals or other requirements. Please just ask.

WHAT TO DO NEXT

If you wish to make a booking for your investigation team, please just call us on 01544 260650 or email us info@judgeslodging.org.uk

A complimentary pre-investigation visit by team leaders during our normal opening hours is most welcome. We will talk to you about your needs and show you the building and its facilities. See our website or call for full opening times.

Once a date is provisionally booked, we will send your contract for you to look over, sign and return to us, along with your deposit. We will also need a copy of your Public Liability insurance. We will then send your booking confirmation.

A note about lighting/electricity: During our daily operation, we are entirely lit by gas and oil lamps. However, these will not run during investigations. We will provide low-level lighting through small table lamps which can be dimmed and battery candles. As there are no additional large lights to put on, we will gladly help you to set up any equipment.—we are used to the gloom!
